A tandoor is a large urn-shaped oven, usually made of clay, originating from the Indian Subcontinent. Since antiquity, tandoors have been used to bake unleavened flatbreads, such as roti and naan, as well as to roast meat. The tandoor is predominantly used in Western Asian, Central Asian, South Asian, and Horn of African cuisines.

Indian cuisine is renowned for its intricate blend of spices, giving each dish a unique flavor profile. From the fiery heat of chili peppers to the fragrant sweetness of cinnamon, the spices used in Indian cuisine play a crucial role in its taste, aroma, and overall appeal. But did you know these spices are not just used for their culinary properties? They also offer a range of health benefits recognized by traditional Indian medicine for centuries.
